Canaletto walnut and delicate Crema marble round small-tables

Disco, a pair of design small-tables, ideal for your living room.  
A perfect match for the Composito sofa.

The most distinguishing feature of these round small-tables is their Canaletto walnut frame, which is characterised by complex twines. This element sustains a delicate Crema marble base.

The lower-edge bevelled marble base leans on four structure points, thus emerging in minimal part on the surface.

Available in two different heights and diameters, the Disco living-room small-tables are suitable not only to be paired in front of the sofa, but also to furnish different parts of your living zone, as central or side support tables.

FINISHINGS AND FABRIC

CANALETTO WALNUT - mat natural finishing
