

FIBRA CHAIR # 3291 : chair for dining room, living room and office.

Fibra is a modern chair, displaying essential lines and design. It combines the lightness of its volumes with the resistance and flexibility of carbon fiber. An uncommon, but highly scenographic combination of materials gives shape to this clear-line product.

FEATURES:

SIZE: 45 x49 xh 95cm

BASE FRAME: The frame of this design chair is manufactured in canaletto walnut wood, in natural mat finishing, to better enhance the grain of this precious essence.

BACK: 100% Carbon - shell made of different layers of carbon fiber, with grammages ranging from 200 gr/m² to 600 gr/m². Autoclave lamination, obtained through vacuum-sealed technique. Prepreg in different weaves, from twill to one-directional, paired and design to achieve stiffness and flexibility in the key points;

SEAT: flame retardant padding, cover in leather or fabric.
Available in c.o.m.
